Babble Best: **Baby Blankets**

Pashmina Store Cashmere Baby Blankets - \$69

These 36" by 36" three-ply cashmere blankets are made in Nepal and distributed online by [The Pashmina Store](#). We like them because they're soft and swank-looking but way more affordable than most cashmere stuff you see. Simple and practical, they're perfect as a light throw for summer or as a winter layer. And they're machine washable, although they'll last a lot longer if you hand wash them.

Get it at [The Pashmina Store](#).
